FAMILIES NEEDED FOR RESEARCH ON HOW CHILDREN LEARN!

Advancing research on learning variability: A pilot study

Principal Investigator: Dr. Daniel Ansari

The Numerical Cognition Laboratory at Western University is part of an international study to find out about how children learn and what helps them to learn.

We are looking for a parent/guardian and their child to take part in this study.

To be eligible to participate you must fit the following criteria:

- your child must be between 5 and 12 years
- you must be proficient English speakers

You will be asked to come to Western University for a 1.5 hour session. You will complete questionnaires about your child, yourself, and your family environment. Your child will complete some online tasks about numbers, arithmetic, language and reasoning.

You and your child will be compensated in appreciation of your time!

For more information or to volunteer for this study, please scan the QR code below or email the researchers at numcog@uwo.ca
